Gashouder is B Corp certified. This is an expression of our commitment to having a positive impact on the city, the neighbourhood, our employees and the environment. In the coming years, we have a concrete implementation plan to further enhance the sustainability of our historic buildings, events, and organisation.

Discover what we've achieved so far:

- Local and sustainable partners for catering, cleaning, audiovisual and waste management services.
- Our fantastic partners, programming and Westergas Foundation make art and culture (more) accesible.
- Since 2022, Gashouder has been gas-free. Over 1,200 solar panels now generate most of its own energy and that of the neighbourhood.
- We reduce CO<sub>2</sub> emissions by purchasing 100% green electricity and calculating the emissions of our buildings and mobility.
